“Home Reno” Rebate Program

The Ontario government is funding a program to support energy efficiency improvements for homeowners. While the program is administered by Union Gas, you do not **not** need to be a customer, but must live in the Union Gas franchise area. (Kingston, Napinee, Gananoque, South Frontenac Twp, Loyalist Twp, Stone Mills Twp, Frontenac Islands Twp, & portions of Leeds & The Thousands Island Twp).

This program will provide rebates of up to **\$5000** to homeowners who install Energy Star® rated energy efficiency upgrades, such as (See reverse for details):

- New furnace/boiler/water heater/air source heat pump
- Added insulation & improved air sealing
- New windows & doors
- Replacing appliances that are over 15 years old

Homeowners **must** have an Energy Assessment performed by a Certified Energy Advisor, both before and after the renovations, the cost of which is included in the rebates.

At Eco Advantage Energy Advisors Inc., we take pride in providing independent, cost effective advice to our clients before any upgrades. After the upgrades, we submit the required documentation for your rebate, and provide a final energy efficiency rating certificate for your home. Your local contact is:

Dan Sideen, CEA, P.Eng

Tel: 613.985.1235

Email: dan.sideen@eaea.ca or info@eaea.ca

Web: www.eaea.ca

To qualify, you must:

- Own a detached or semi-detached home, or a townhouse.
- Reside in the Union Gas franchise area
- Have an Energy Assessment done before & after the upgrades
- Complete at least two upgrades from two separate categories within 120 days

The Rebates:

Rebate (\$)	Upgrade Requirement
Basement Insulation	
1250	For adding at least R23 to 100% of basement
750	For adding at least R12 to 100% of basement
1000	For adding at least R23 to 100% of crawl space wall
500	For adding at least R10 to 100% of crawl space wall
500	For adding at least R24 to 100% of floor above crawl space
Exterior Wall Insulation	
1,750	Add at least R9 for 100% of building to achieve a minimum of R12.
1,250	Add at least R3.8 for 100% of building to achieve a minimum of R12.
Attic Insulation	
500	For increasing attic insulation to at least R50 from R12 or less.
250	For increasing attic insulation to at least R50 from R13 to R25.
500	For increasing cathedral/flat roof insulation by at least R14.
Air Sealing	
150	Achieve 10% or more above base target
100	Achieve base target
Primary Heating System	
1000	Replacing a 94% or less AFUE natural gas, propane, or oil furnace with a 95% or higher AFUE condensing natural gas, propane, or oil furnace
1000	Replace a 89% or less AFUE natural gas, propane, or oil boiler with a 95% or higher AFUE condensing natural gas, propane, or oil boiler
750	Replace a wood burning appliance with a qualified indoor or outdoor appliance*
up to \$4000	Install an air source heat pump with a minimum EER of 12.5 in an electrically heated home.*
Water Heater
